CAREER OBJECTIVE:

Experienced web developer skilled in building both frontend and backend systems, and ensuring quality. Passionate about creating visually attractive websites that boost business. Seeking opportunities to use my testing and backend skills in exciting projects. Always eager to learn about new technologies for better results. My background demonstrates my ability to develop websites, test them, coordinate projects, and work well with different teams to reach goals.

EXPERIENCE:

As a dedicated web developer, I have successfully undertaken a diverse range of responsibilities, including:

- Working for various projects, including School, College, B2B Client.
- Testing and integrating all forms, ensuring seamless functionality and user experience.
- Coordinating with clients for website development and updates, including resolving broken links and bugs.
- Developing and maintaining landing pages (LPs).
- Managing website maintenance tasks post-handover, ensuring continued functionality and relevance.
- Participating in the design and partial development of new LPs.
- Implementing lead management strategies.
- Engaging in performance testing and improvement initiatives to enhance website efficiency.
- Contributing to the development of file management system applications and LPs, focusing on usability and functionality.
- Collaborating with key stakeholders to develop and launch new franchise websites.

These experiences showcase my proficiency in web development, testing, project coordination, and collaboration with diverse teams to achieve organizational objectives.

TECHNICAL SKILLS:

Testing:
Automation Testing: Java-Selenium Architecture, Locators, XPath, Java-Selenium Frame Work.
Manual Testing: SDLC Model's, STLC, Proficient in writing Scenarios, Test cases and Defect report, White box testing, Black box testing and Gray-Box testing, Retesting testing and regression testing, Defect life cycle

Languages:
React JS, C (Programming Language), Java, Python

Frontend Development:

HTML CSS & JS, WordPress, CMS, Wix, Web flow.

SKILLS & TOOLS:

- GitHub
- Postman (API Testing)
- CRM Management
- Zapier (Automation Tool)
- Adobe Suit (Beginner)
- MS-Office
- Problem Solving
- Analytical Skills

CERTIFICATION'S:

- HTML, CSS and JS Certificate
- React JS
- Testing from Qspiders
- Microsoft Technology Associate Networking Fundamentals.
- Cisco Networking Academy PCAP: Programming Essentials in Python.
- Technical certificate on Java Business Application.
- Training Technical certificate on Java Business Application Training.

ACADEMIC QUALIFICATION:

- Completed B. Tech in CSE from Anurag college of Engineering in the year of 2021.
- Completed Intermediate from Narayana Junior College with MPC in the year of 2017.
- Completed SSC from Montessori English Medium High School in the year of 2015.

PROJECT:

Title: Smart Assistant for Visually Impaired
Technologies: Recurrent Neural Networks, YOLO Trained Model, Google Voice Converter.

Title: OCR a Document, Form, or Invoice with Tesseract, OpenCV, and Deep Learning
Technologies: Tesseract, OpenCV, Deep Learning.
